

Your Industrial Supply Partner...

Introduction...

Craven Electrical is a leading independent distributor of industrial control and sensing products. We offer the very best in supply and support services including - same day delivery, product support and technical help.

Craven are proud to work in close association with a number of suppliers to provide the best electrical components. Our products, software and services carry brands recognised globally for quality, innovation and performance.

The company which was established in 2001, has gained a wealth of knowledge and experience in sectors such as automotive, food, plastics, rubber and the water industries. We're also breaking into energy generation markets. We have carried out a number of sensing and engineering projects, providing new equipment as well as upgrading it on-site.

Based near in Welshpool, Mid Wales, we supply to a wide range of companies throughout the UK. We have a fantastic, friendly team which is steadily growing to support the ever growing demand.

Products

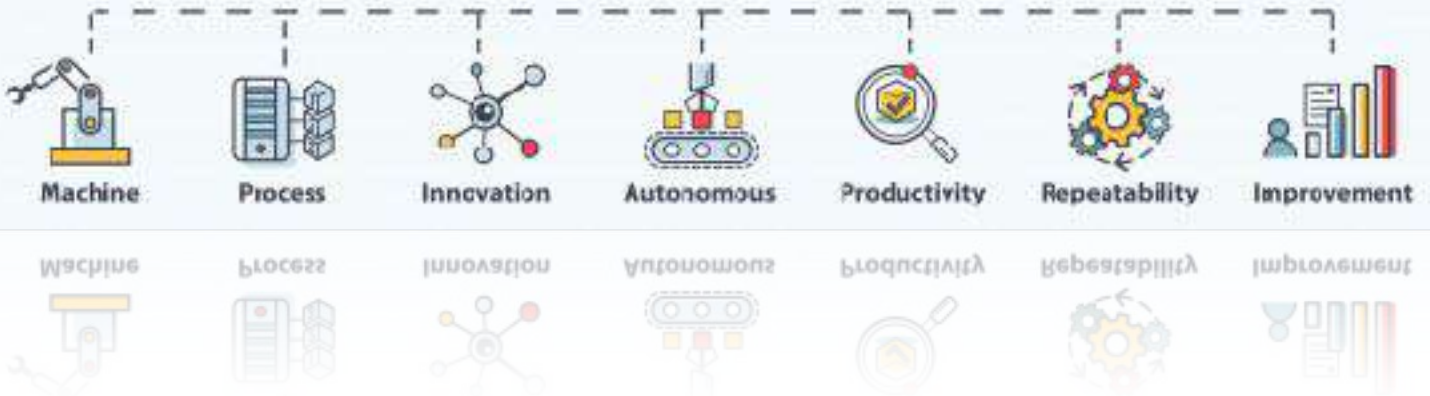

- **Cables and Accessories**
- **Circuit Breakers**
- **Control Gear/Switchgear**
- **Drives/Motors**
- **Enclosures**
- **Motion Control**
- **Operator Interface**
- **Panel Accessories**
- **Pneumatics**
- **PLCs**
- **Safety**
- **Sensors**
- **Software**
- **Terminals/Connectors**
- **Wiring Accessories**

Services...

AUTOMATION

ONSITE STOCK MANAGEMENT

We can manage and replenish stock tailored to meet individual customer requirements. This can be done by bonded stock control or by just helping with improving stores stock control that is already in place. We can also help with looking at usage/stock targets/patterns/costs and equivalent products.

VENDOR REDUCTION

Many customers have benefited by choosing CEW as their single source of electrical components. We have put a large portfolio of products under our banner from hundreds of suppliers so you have the benefit of only making one call to get the electrical items that you require for your projects.

TECHNICAL SUPPORT

For help with product selection and finding an item that is better suited for the application. We can visit on-site and offer out of hours service for our customers. We can also visit site with our partner experts.

SOURCING OF OBSOLETE PARTS & EQUIPMENT

We keep in stock a vast amount of products that are no longer available from manufacturers for example Allen-Bradley/Siemens and Omron PLCs. We also have routes to source obsolete stock if we can't update too new equivalents.

Sensors...

Are you looking for a solution to your sensing application?

Craven electrical are a leading supplier of inductive and photoelectric sensors as well as safety and RFID systems. Craven also stock and supply a range of capacitive and level control sensors which means we cover all industries.

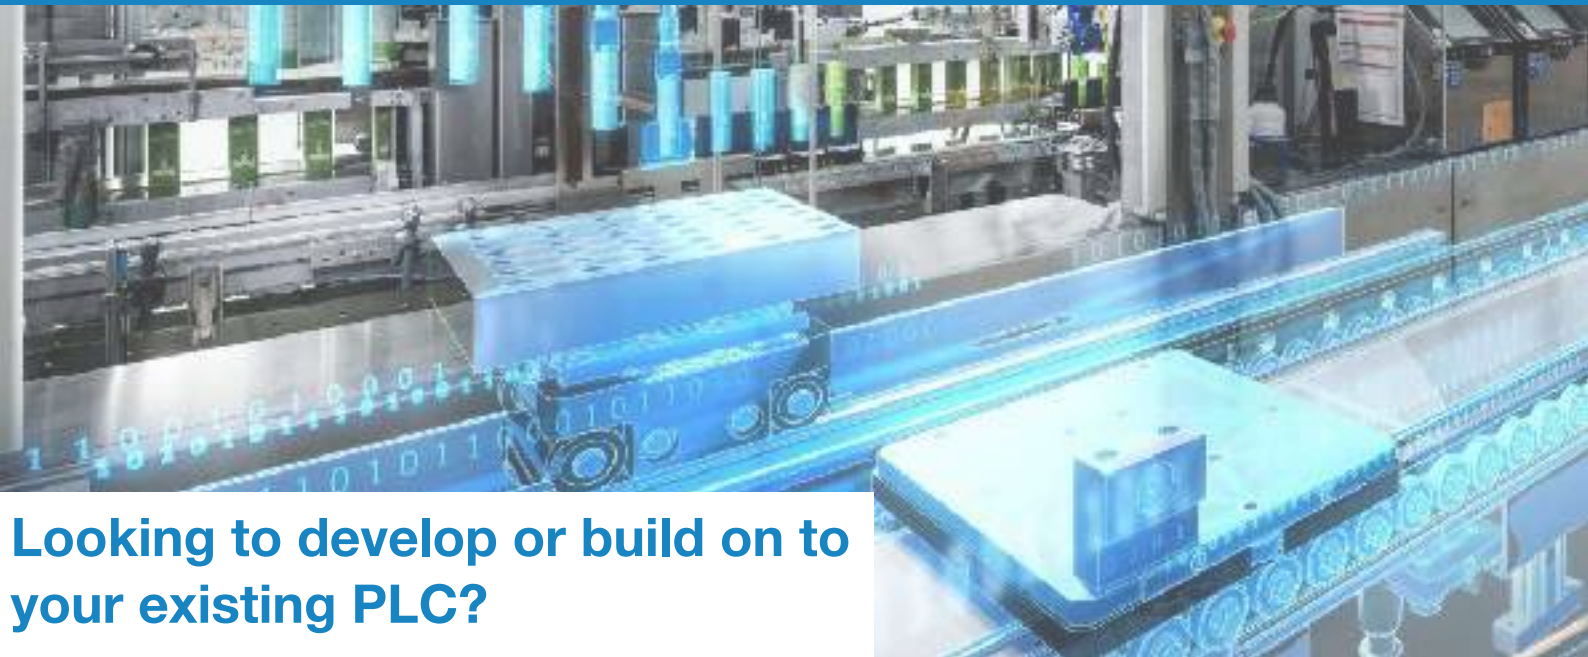

We supply a huge range of sensors, ranging from; capacitive sensors, level sensors, magneto resistive sensors, inductive sensors, photoelectric sensors, ultrasonic sensors, laser distance sensors.

We have a dedicated sensor room where we keep stock a full array of sensors for every requirement. We are confident that there is a sensor in stock that can help get you back up and running in no time.

For more information...

PLCs...

Looking to develop or build on to your existing PLC?

PLCs can range from small modular devices with tens of inputs and outputs (I/O), in a housing integral with the processor, to large rack-mounted modular devices with a count of thousands of I/O, and which are often networked to other PLC and SCADA systems

At Craven we offer a range of PLCs to meet your system demands and more, with something to offer for any application and more importantly what you the customer needs.

We stock a range of PLC brands such as; Schneider, Zelio, Mitsubishi and Allen Bradley, we can also source discontinued models.

Drives...

How can we support you with your most critical parts?

An extensive lineup of drive products supporting different applications. At Craven Electrical we stock a wide range of models and makes. Whatever your needs we offer technical help and support to find what's right for you.

Inverters are variable frequency power supply units which can change the rotation speed of the three-phase induction motors easily and flexibly.

High-performance and environmentally friendly inverter compliant with global standards.

An extensive range of models are available according to application.

We can offer great support and local stock of Mitsubishi drives. We stock from 0.25 up to 37kW

Other leading brand we source are...

SIEMENS

Schneider
Electric

ABB

OMRON

Nidec

Allen-Bradley

HMI's...

Is it time to upgrade your human interface?

Craven electrical supply a wide range of HMIs. At a time when better productivity, safety and peace of mind have never been greater. Craven electrical serves its customers with a wide range of HMIs, along with developing products that match customer needs.

Our Preferred Partner...

GOT2000 Series

The GOT2000 inherits all the features of GOT1000 series, and introduces a more refined and advanced function set.

GOT1000 Series

The GOT1000 series offers six classes of terminals including handy type models to fit any system or budget requirement.

We can also source...

Allen-Bradley

Power Supplies...

Are you looking to improve efficiency of your energy?

Craven Electrical only stock power supplies that are reliable, have compact housing design with optimal performance.

DIN rail power supplies have become the standard for a **reliable and efficient power supply**. They are an integral part of numerous application areas – such as mechanical engineering, industrial automation, logistics, automotive industry, wind power, process industry and many more. We are a distributor for PULS and keep a range of stock available for immediate delivery.

OMRON

SIEMENS

Weidmüller 

PULS
